Working With Children Check (Australia): WWC0082733E  
BOSTES Institute No.: 276140

## Objective

The student of life gains knowledge from all experiences – success, curiosity, error, abstraction, and the wisdom of others. I deeply love this learning, which is an honor I hope to be infectious. Yet the scope of human potential is grand: for what is education without equal incorporation of social, emotional, academic, physical, and spiritual considerations? In my sixteen years of working with children, and in the years I look forward to, I can only hope that I will have given to my students and colleagues as much as I have received in all of those facets.
